Sir,

Sub: Petition for True-up for FY2023-24-reg.

The year-end Truing up application for the Financial Year 2023-24 as per the regulation has been prepared and submitted herewith in six copies. The fee for submitting the petition calculated as below is remitted herewith as a cheque. The component wise explanation of the expenses and income are described in the subsequent paragraphs and replies to the specific clarification points in the above letter are provided towards the end.

No.	Item	Amount (Rs)
1	Annual Revenue FY 2023-24	Rs. 6832.31 Lakhs
2	Fee for True UP Petition @0.006%	Rs. 40,994 /-
3	Fee for Delay Condonation Petition	Rs. 10,000 /-
	Total Amount (Cheque)	Rs. 50,994 /-

It is requested that the application be placed before the Hon'ble Commission for Formal Approval.

Thanking You.

Yours faithfully,
For Electronics Technology Parks-Kerala

Petition No:

IN THE MATTER OF: **Petition for condonation of delay in submitting Truing up of accounts for Financial Year 2023-24 of the Distribution Licensee TECNOPARK.**

Petitioner: M/s. Electronics Technology Parks – Kerala (Technopark)
Park Centre, Technopark Campus, Thiruvananthapuram - 695581

AN APPLICATION FOR CONDONATION OF DELAY

1. The KSERC (Terms and Conditions for Determination of Tariff) Regulations, 2021 has stipulated time limit up to 30 November 2024 for filing the petition for truing up of accounts for the FY 2023-24. However, the petition could not be submitted in time because of the reasons humbly stated below.

2. It is admitted that, there was delay in preparing the petition and statements in the format required by Hon'ble Commission Regulations. There were several clarifications which were required in preparation of the True-up petition for the FY 2023-24 regarding recasting of assets from 2012-13 which was the main reason for the delay.
3. Now the petition has been finalized and submitted before the Hon'ble Commission. It is earnestly appealed that, the delay in submission of the ARR ERC petition caused due to the above factors may please be condoned.

Prayer

Under the above circumstances, it is prayed that the delay in submitting the petition for Truing up for FY 2023-24 may kindly be condoned.

Jayanti

THE KERALA STATE ELECTRICITY REGULATORY COMMISSION

C V Raman Pillai Road, Vellayambalam, Thiruvananthapuram.

Petition No:

IN THE MATTER OF:

Petition for Truing up of accounts for Financial Year 2023-24 of the Distribution Licensee TECHNOPARK.

Petitioner: M/s. Electronics Technology Parks – Kerala (Technopark)
Park Centre, Technopark Campus, Thiruvananthapuram - 695581

THE PETITIONER RESPECTFULLY SUBMITS THE FOLLOWING FACTS:

1. The petitioner, **Electronics Technology Parks – Kerala (Technopark)**, is a State Government owned registered society engaged in development of Technology Parks for promotion of Electronics and Information Technology business in the State of Kerala and possess Electricity Distribution Licences for supply of electricity within the three parks so developed in Kazhakuttam, Kollam and Pallippuram. The petitioner licensee has been regularly submitting petitions for approval of Aggregate Revenue Requirement (ARR), Expected Revenue from Charges (ERC), Year-end Truing-Up petitions and other submissions complying the prevailing acts and regulations.

2. The petitioner had submitted the **ARR&ERC petition** for the current control period (FY 2022- FY 2027) on 11-05-2022 and revised petitions on 13-06-2023 based on the daily order dated 17-05-2023. Hon'ble commission pronounced the order **(OP 12/2023)** on 28.02.2024.

3. The petitioner had filed **the first truing-up petition, for FY 2022-23, on 30-11-2023,** in the present control period, covering FY 2023 to FY 2027. Hon'ble Commission has not

pronounced the order on the petition. And now, this current trueing-up application is submitted in respect of the truing up of accounts for the **Second Financial Year** of the current control period **2023-2024.**

SUMMARY OF TRUING-UP

4. The **Accounts of the petitioner for the Financial Year 2023-24** has been finalised and audited as per rules. This truing-up petition is prepared and submitted based on the audited accounts. Various Income and Expenses are presented in comparison with the last year audited accounts figures and corresponding figures the ARR& ERC order mentioned above. The required formats for filing truing up petition in accordance with **Hon'ble Kerala State Electricity Regulatory Commission (Terms and Conditions for Determination of Tariff) Regulations, 2021** applicable for the control period from 01-04-2023 to 31-03-2027 have been prepared and attached this petition.

5. A summary of the actual expenses and that approved by the Hon'ble Commission along with previous year actual values are given in the Table below. Various expenses / revenue income under each head is explained in the subsequent paragraphs.

SUMMARY OF TRUING-UP FOR FY 2023-24				(Rs Lakhs)
No.	Particulars	2023-24	2023-24	2022-23
		Audited	Approved	Audited
1	Cost of power purchase	5549.13	5919.11	4,652.88
2	Employee Expenses	60.02	28.35	54.54
3	Administrative and General Expenses	95.36	37.69	92.05
4	Repairs and Maintenance Expenses	503.62	331.51	447.65
5	Depreciation Expenses	82.38	142.60	162.45
6	Interest paid on capital loans	0.00	7.87	8.96
7	Interest paid on working capital	0.00	0.00	0.00
8	Interest paid on security deposits	123.65	76.11	72.70
9	Total Revenue Expenditure	6414.17	6543.24	5,491.24
10	Return on Equity /Net Fixed Assets	90.04	21.07	86.60
11	Aggregate Revenue Requirement	6504.21	6564.31	5,577.83
12	Less: Non-Tariff Income	148.43	157.31	78.09
13	Agg Revenue Requirement from Tariff	6355.78	6407.00	5,499.75
14	Revenue from Charges / Sale of power	6683.88	6766.84	5,750.11
15	Revenue Surplus / (Deficit)	328.09	359.84	250.37

POWER PURCHASE EXPENSES

6. **Consumers and Energy Sales:** During the Financial Year 2023-24, the petitioner had served a total of **964 nos consumers** in all the five campuses of Technopark as compared to 933 nos consumers previous financial year. The total energy sold to these consumers was **74.40 MU** indicating an increase of **13.53 %** over previous year. A comparison of growth of consumers and sales with approved values (ARR&ERC Order OP-12/2023 dt:28.02.2024) for

FY 2023-24 are given in the table below. It may be noted that the **sales have not yet returned** to the pre-COVID level.

Particulars	2019-20	2020-21	2021-22	2022-23	2023-24	2023-24 Approved
HT Consumers (Nos)	22	22	23	23	24	--
LT Consumers (Nos)	854	835	839	910	940	--
Total Consumers (Nos)	876	857	862	933	964	1005
Energy Sales (MU)	88.47	50.54	50.08	64.33	74.40	82.79
Sales Growth (%YOY)	2.19%	-42.87%	-0.9%	+28.45%	+15.65 %	

7. **Revenue from Sale of Energy:** The revenue earned from sale of power for the year was **Rs 6683.88 Lakhs** for FY 2023-24, an increase of **16 %** over previous year. The average revenue realised per unit was **Rs. 8.96.** The energy sales and the revenue data for each customer category is given in Form D-2.1. The campus wise data are also given in the same format in separate Sheets. The month wise and Campus wise sales data are given in Form D-7.1 in separate sheets. A comparison of the energy sales and per unit revenue realisation for past years and that approved are given in the table below.

Particulars	2019-20	2020-21	2021-22	2022-23	2023-24	2023-24 Approved
Revenue (Rs Lakhs)	6760.31	4260.79	4317.28	5750.11	6683.88	6766.84
Revenue Growth (%YOY)	---	-36.97%	1.33%	33.19%	16.24%	
Per Unit Realisation (Rs)	**7.64**	**8.43**	**8.62**	**8.93**	**8.96**	**8.36**

8. **Power Purchase and Cost:** The petitioner purchase power from the State Power Utility, **KSEBL** to meet the consumer requirement. Technopark purchased **77.18 MU** of energy from KSEBL in FY 2023-24 at a total cost of **Rs 5549.13 Lakhs,** that was 19.26% higher than previous year expense. Power purchase Cost constitutes the **largest component (87%)** of the total expenditure (without considering the returns on equity allowed). The average per unit cost of power purchase, thus, was **Rs.7.19 per unit** whereas it was **Rs.6.95**, last year. The details of power purchase for each phase of Technopark are given in the Form D-3.1. The table below shows the comparison of power cost and the per unit rate for previous years and the ARR approved values.

Particulars	2019-20	2020-21	2021-22	2022-23	2023-24	2023-24 Approved
Energy Purchased (MU)	90.58	51.86	51.46	66.97	77.18	84.90
Purchase Cost*(Rs Lakhs)	5,770.58	3,511.93	3,494.83	4,652.88	5549.13	**5919.11
Cost Change (%YOY)	---------	-39.14%	-0.48%	33.13%	19.26%	
Per Unit Cost (Rs/Unit)	**6.37**	**6.77**	**6.79**	**6.95**	**7.19**	**7.00**
**Actual Power Purchase Cost is taken for comparison.*						
***Excludes the REC purchase cost of Rs 353.44 Lakhs approved.*						

9. **Solar Generation:** The petitioner has six rooftop solar plant of total capacity 355.5 kW and generated about 3.81 Lakhs units of electricity (kWh) as compared to 3.4 Lakhs units in previous year. During FY 2023-24, two new plants were commissioned: A 15.5 kW Plant over the roof of the Electric Vehicle Charging Station in Technopark Phase-I Campus 03-06-2023 and another 35-kW rooftop plant in Technocity campus on 13-10-2024. The solar generation from these six plants and the corresponding Capacity Utilisation Factors (CUF) is given below. It may also be noted that the number of sunny days and solar irradiation can significantly affect solar generation. The inverter and power conditioning unit (PCU) of the 10 kW solar plant were under repair.

The plant was commissioned 5 years ago, and the DLP of the plant has expired. Therefore, we require support from Delta (the OEM of the inverter) for its rectification.

However, we did not receive adequate service support from the original equipment manufacturer (OEM). Therefore, our in-house team took the initiative and inspected the equipment. They successfully rectified the issue, ensuring the plant's proper functionality.

Solar Generation Technopark Own Plants for FY2023-24							
No	Month	200 kWp	50 kWp	25 kWp	10 kWp	15.5kWp	35kW

	CUF*	14.7%	16.7%	18.0%	5.2%	19.5%	17.8%
** CUF (Capacity Utilisation Factor) = Yearly Generation x 100 / (Plant Capacity x inverter efficiency x 24 x no of days)*							

OPERATION AND MAINTENANCE EXPENSES

10. The total **Operation and Maintenance Cost** during the year was **Rs.659.00 Lakhs** for the year and is the **second significant component (10%)** of the total expenses. The YOY increase in audited O&M expenses was a nominal 15%. This expense comprises of three components, namely, the cost for Repairs and Maintenance cost (R&M), Administration and General Expense (A&G) and the Employee Cost (EC). These expenses are explained in the paragraphs below. A comparison of the *actual O&M* expenses for previous years and approved vales and the year-on-year changes are provided in the table below.

Particulars	2019-20	2020-21	2021-22	2022-23	2023-24	2023-24 Approved
Employee Cost (Rs Lakhs)	39.15	45.85	53.85	54.54	60.02	28.35

YOY % Change	+5.80%	-23.10%	+7.70%	+7.90%	+10.90%	---

Employee Cost

11. The Employee Cost comprises of the salary and benefits paid to the employees of Technopark directly **involved in the electricity distribution business activity** based on their work, time and effort to distribution business. The gross salary paid to the employees are apportioned based on the same ratio that was taken in last Truing-up petition, now under the consideration of the Hon'ble Commission. The details of employees and apportionment of their salary and benefits are given in the table below.

No	Designation	Posts	Gross Salary (Rs)	Apportion Ratio	Net Salary Expense (Rs)
1	Chief Executive Officer	1	4359600	10%	4,35,960
2	Chief Finance Officer	1	2352000	20%	4,70,400
3	GM (Projects)	1	2,144,400	25%	5,36,100
4	Deputy Manager (Electrical)	1	1,252,690	100%	12,52,690
5	Deputy Manager Finance	1	1886640	40%	7,54,656
6	Sr. Executive Finance	1	496665	75%	3,72,499
7	Apprentice Trainee	1	270000	50%	1,35,000
8	Jr. Electrical Engineer	1	419,208	100%	4,19,208
9	Supervisors/Meter readers	4	2027820	75%	15,20,865
10	Civil Engineer	1	419208	25%	1,04,802
	Total				**60,02,180**

12. The Gross salary given above includes interim relief paid to employees in FY 2023-24, on account of delay in pay revision approval due from the Government. This amount is separately shown in Form-D34. Further, only four (4) months' salary and allowances were paid last year to the **newly joined** Junior Electrical Engineer, but his full salary is accounted this year.

13. The components of salary expenses at Government scale are shown separately in Form D-3.4 (a). In this Form, the Salary and benefits given to direct employees are shown disbursed based on the pay scale approved by the State Government. However, remuneration to Chief Executive Officer, Chief Financial Officer, Senior Executive Finance, Supervisors, Civil Engineer and the apprentice are consolidated payments and are shown **'consolidated pay'** in the above form.

14. Accordingly, the employee expense was **Rs. 60.02 Lakhs** for FY 2023-24. For the previous three years the audited gross employee cost was Rs. 54.56 Lakhs (FY 2022-23), 53.85 Lakhs (FY 2021-22) and Rs. 45.85 Lakhs (FY 2020-21). The increases in these expenses are only due to yearly increases in the annual salary and dearness allowances. There is only a nominal increase in respect of other allowances such as HRA and CCA. There are now two permanent employee, Deputy Manager (Electrical) and recently recruited Junior Electrical Engineer who are full time employed and directly managing the business of electricity distribution. All the system maintenance services are carried out through contractors.

Administrative and General Expenses

15. The **Gross A&G Expenses** had been **Rs.95.36 Lakhs** for the year and **includes** electricity duty payable to the Government by the Licensee under Section **3(1)** of the Duty Act 1963. The increase in A&G expenses including the above duty is **3.6 %.** The split-up details are given in the Form D-3.4 (b).

16. The Section **3(1)** Duty paid to the Government the year was **Rs.41.41 Lakhs.** The Hon'ble Commission has been disallowing the Section 3(1) duty payable to the Government which is a genuine expense for the petitioner. This year the **5.5%** retuned calculated based on the NFA allowed by the Commission is **Rs.90.04 lakhs**. If the Hon'ble Commission disallow the Excise Duty, this petitioner will be left with only Rs.48.63 Lakhs on ROI. The petitioner must make up the disallowances in other heads and **this will badly affect the finances and investment to be made by the petitioner**. The Hon'ble Commission may please reconsider this aspect and allow the Duty as an expense till the Government takes a final decision on the matter. The expenses under various heads under A&G expenses are explained in the following paragraphs.

17. The next highest component of A&G expense is the expenses towards providing **Security Arrangements** which was **Rs.12.32 Lakhs.** There is only a nominal 5% increase than the amount claimed previous year (Rs 11.73 Lakhs) as normally allowed by Hon'ble Commission. It is humbly requested that the Hon'ble Commission may allow the amount of Rs.12.32 lakhs claimed, though the actual cost is much higher than the claimed amount.

18. The **Electricity Charges** for the year was **Rs.12.26 Lakhs** compared to Rs.12.10 Lakhs Previous Period. The office functions of the Electricity Distribution Business and other business activities of the Technopark are carried out from the Head Office Building called "Park Centre". Electricity used for the administration offices are measured with separate meters. Forty Percent (40%) of electricity charges for administrative offices are apportioned to the Distribution business activity as has been approved by Hon'ble Commission in earlier orders. Balance 60% are apportioned to main business activity and that amount will be a sale of power revenue for the distribution business.

19. **Professional Fee and Consultancy charges** paid during the year was **Rs.11.75 Lakh**. The split-up details of the expenses and its explanations are furnished in the table below.

No	Item of expense	Amount (Rs)	Remarks
1	Annual Energy Audit Fee (for FY 23-24)	9,24,200	Paid to the Productivity Council for annual and periodical energy audits as per the norms of BEE in the Technopark Campus.
2	Advertising Expenses for the above	5,960	
3	Fee for Regulatory consultant	2,45,000	For ARR FY2022-27, TU-2020-21 and 2021-22
	Total	**11,75,160**	

20. The licensee has been hiring a vehicle which is exclusively for the purpose of conducting business of electricity distribution. This expense termed as **Conveyance Expense** amounted to **Rs.6.55 Lakhs** in the year. The amount paid in previous years were Rs.5.55 Lakhs. This cost depends primarily on the cost of fuel and usage of the hired vehicle depending on requirements and therefore does vary year to year.

21. **Bank Charges** paid during the year, **Rs.3.67 Lakhs**. In previous two years, bank charges were Rs. 1.89 Lakhs and Rs 2.74 Lakhs respectively. These are the charges paid for Various Bank Guarantees taken from the bank for electricity distribution business purposes and vary year to year depending on the business conditions and requirements and therefore may please be fully allowed.

22. The **Licence Fee** paid for the Distribution business to Hon'ble Commission amounted to **Rs.1.81 Lakhs** versus Rs 1.38 Lakhs paid last year. The **Fee paid for filing Petition** and similar fees paid to the Hon'ble Commission amounted to **Rs.1.54 lakhs** compared to Rs.1.29 Lakhs, Rs 2.92 Lakhs and 3.66 Lakhs in three previous years.

23. The **office expenses** (Telephone, Postage etc) during the period were **Rs.48,779** in the year, compared to previous three years expenses of Rs 34,925, Rs 37,247 and Rs 39,574. An amount of **Rs.38,000** was spent for **staff training** during the year for online certification course on Electricity Law for the Junior Electrical Engineer and Executives and paid to Dr Gopal Energy Foundation, New Delhi. An audit fee amounting to **Rs.33,000** was also incurred in FY 2023-24.

Repairs and Maintenance Expenses

24. The operation, maintenance and routine repairs of the distribution system in Technopark license area is carried out by licensed electrical contractors. The contract is awarded after a due transparent process of competitive tendering as per the existing rules and government directions. The tenders for R&M works are invariably invited through the government e-tendering portal. Thus, it is ensured that the contract amount discovered is the lowest possible price. The details of the **R&M** contracts are given in the table below.

R&M contract details				
Campus	**Contractor**	**From**	**To**	**Contract Value (Rs)**
Phase-I Kazhakuttam	Fathima Engineering	01/07/2020	30/06/2023	7,93,16,774

Phase I Kazhakuttam	Fathima Engineering	01/07/2023	31/08/2023	55,38,186
Phase I Kazhakuttam and Phase -IV Kabani	Ideal Datacom Network	01/09/2023	31/08/2026	13,01,51,604
Phase III Kazhakuttam	Geresh Electricals	01/08/2022	31/07/2025	1,24,18,800
Phase III & IV 110 kV SS	Sterling and Wilson	01/01/2022	31/12/2024	1,80,53,836
Phase V - Kollam	ABM Electricals	01/11/2022	31/10/2025	1,05,05,712

The total **R&M Costs incurred** during the year were **Rs 503.62 Lakhs** compared to Rs.447.65 Lakhs, Rs.404.85 Lakhs and Rs.376.29 in previous three years. The phase wise expenses are shown in Table D-3.4c. There is an overall increase of 12.50 % in this cost compared to previous year, which is inclusive of new distribution area under Phase-IV campus.

The R&M cost includes the amounts actually paid to R&M contractors, as well as the cost of spares and materials used, purchased, or stocked. It also covers one-time expenses and additional preventive maintenance activities for substation breakers, relays, power transformers, and related equipment expenses incurred during the year.

25. In this regard, it may please be noted that, in the **Tariff Regulations, 2021** that came into effect from 01-April-2022, Hon'ble Commission had adopted the method of **escalating the latest approved trued up O&M expenses** (excluding one-time O&M components) at a rate of **4.84%** to arrive the expenses at the chosen Base Year for all Licensees other than KSEBL. The base year chosen was FY 2021-22 and for Technopark the latest trued up costs were taken for FY 2018-19. Accordingly, Hon'ble Commission fixed the O&M norms and given in the table below in Rs Lakhs.

Item	**FY 18-19**	**FY 21-22**	**FY 22-23**	**FY 23-24**	**FY 24-25**	**FY 25-26**	**FY 26-27**
	Trued-up	*Projected*	*Norm Fixed for the current control Period*				
Employee Cost	22.55	25.99	27.14	28.35	29.61	30.93	32.31
R&M Cost	263.67	303.84	317.37	331.51	346.28	361.70	377.81
A&G Expenses	29.98	34.55	36.09	37.69	39.37	41.13	42.96
Total	316.20	367.37	380.60	397.55	415.26	433.76	453.08

26. Now, the actual Trued-up valued for FY 21-22 is available which is in substantial variation with the projected values for that year. The R&M norms for the are recalculated based on base year Trued-up values and given in the table below. The same escalation rate of 4.454 % has been adopted in computing the new values.

Item	**FY 21-22**	**FY 21-22**	**FY 22-23**	**FY 23-24**	**FY 24-25**	**FY 25-26**	**FY 26-27**
	Projected	*Trued-up*	*Norms recalculated for the current control Period*				
Employee Cost	25.99	43.03	**43.03**	**44.98**	**47.03**	**49.16**	**51.39**
R&M Cost	303.84	329.87	**329.87**	**344.85**	**360.50**	**376.87**	**393.98**
A&G Expenses	34.55	62.95	**62.95**	**65.81**	**68.80**	**71.92**	**75.18**
Total	367.37	435.85	**435.85**	**455.64**	**476.32**	**497.95**	**520.56**

27. However, *there still exists substantial gap between the real and trued costs* for the base year FY 2021-22. This is because of the disallowances during previous years. This gap had widened on application of escalation factors. The costs recalculated as per the Regulation methodology, it is humbly appealed, that does not reflect reality. Hon'ble Commission may, therefore, consider the fact that the R&M contracts are awarded after a fair and transparent process of on-line tendering where there were a fair number of competitive bids for the contract and that there is little scope for reducing these costs. There is no way to compensate for the substantial gap between the actual R&M cost genuinely incurred and that allowed in the ARR. This gap, Hon'ble commission may please note that this difference in cost does not in any way reflect any defect or inefficiency on the part of the petitioner. The cost incurred is the lowest discovered by transparent bidding. The petitioner is legally bound to pay the contracted amount that was discovered through a transparent bidding process. Hon'ble Commission may please appreciate the fact that, the petitioner has taken earnest effort to control R&M cost by abolishing posts arising when employees retire or resign. ***Since Technopark is incurring only minimal R&M expenses discovered through bidding, Hon'ble Commission may please allow the petitioner to meet the actual expenses in this respect as a one-time correction measure.***

ASSETS, ADDITIONS AND DEPRECIATION

28. **Opening Gross Assets**: Hon'ble Commission had approved asset addition to FY 2019-20 and had directed the petitioner to file clarifications on assets added during FY 2020-21 in the truing up order (OP81/2022 dated 27-07-2023) for that year. This petitioner, had submitted, as directed, the clarifications including all documents related to the asset addition during FY 2020-21 vide a submission dated 27-10-2023. It is understood that the matter is under active consideration of Hon Commission. It is earnestly appealed that Hon'ble Commission may please consider the above submissions and the capital expenditures genuinely incurred and pass appropriate order in respect of the asset additions in FY 2020-21 and thereafter.

29. Hon'ble Commission had determined Technopark depreciable gross fixed assets of Rs.3427.20 Lakhs (that includes an embedded non-depreciable component of Rs.612.06 Lakhs), a non-depreciable asset of Rs 162.51 Lakhs crated from grants and Contributions and the accumulated depreciation of Rs.1795.20 Lakhs at the end of FY 2019-20 in the truing-up order (OP No 48/2021 dated 16-02-2022).

30. **Age of Assets:** The Tariff Regulation 2021 notified by Hon Commission mandates depreciation computation based on age of assets. Yearly depreciation of assets below 13 years of age is computed at the rates given in the Regulation foe each group of assets. Whereas the

depreciation of Assets above 13 years of age, is computed by dividing the written down value by the remaining age of life excluding salvage value of 10% of original cost. For this computation, the petitioner has prepared a table of depreciation right from the inception till FY 2023-24 and submitted along with this petition. The Gross Fixed Assets matches with the corresponding values arrived by the Hon'ble Commission for 2019-20.

31. Assets Capitalised for FY 2023-24: The following assets were capitalised during the FY 2023-24. The petitioner had filed a Capital Investment Petition for an amount of Rs 517.95 Lakhs before the Hon'ble Commission 24-11-2023 including the completed capital projects given below and the Commission order on the petition is earnestly awaited.

No.	Project	Commissioning	Amount (Rs)	Estimate (Rs)	Remarks
1	11 kV Network Revamping (Phase-1)	September 2023	3,36,62,822	434.24 Lakhs	The petition for capital investment for these works was submitted to the Hon'ble Commission on 24-11-2023 and is awaiting the final order.
2	Solar Plant over EV station (Phase-1)	June 2023	9,16,499	6.45 Lakhs	
3	SITC of 35 kWp Roof top grid connected solar plant at 110kV substation Technocity	October 2023	21,93,000	22.80 lakhs	
4	Solar Plant 200 MW (Final Bill paid)	March 2018	5,74,650	NA	Already approved
5	Electric Vehicle (2 Nos)	March 2024	3,06,122	NA	Cost Less than 15 Lakhs. Hence Prior approval not required
6	SITC of 11kV VCB & 110kV CT for substation Technopark Phase III	December 2023	26,41,378	25.89 lakhs	
	Total		**4,02,94,471**		

32. In this regard, kindly note that Technopark submitted a petition for capital investment for the first three capital works in the Technopark Phase-I Campus for approval on 24-11-2023, which was heard on 27-02-2024. The Hon'ble Commission is requested to kindly consider our petition and approve the capital investment. Now the revamping of the 11kV power distribution system at the Technopark Phase-I Campus, Thiruvananthapuram, the commissioning of a 15.5 kWp solar plant above the hybrid electric vehicle charging station, and 35 kWp Roof top grid connected solar plant at Technocity as mentioned in the table above, were completed during the financial year.

33. Further, the retention bill payable for the 200 kWp Solar plant commissioned earlier was paid this year amounting to Rs.5.75 Lakhs and included in the asset addition. Technopark has purchased two electric scooters, exclusively for use in the power distribution business, at a total cost of Rs. 3.06 lakhs. These scooters facilitate day-to-day operations, including visits

to substations and consumer premises within Technopark campuses. One electric scooter is dedicated to the Phase-I Campus, while the other serves the Phase-II, Phase-III, and Phase-IV campuses. During this period, in the 110kV substation at Technopark Phase-III, the existing VCBs, which are more than 10 years old, were experiencing operational issues. Accordingly, we conducted an inspection of all VCBs in the HT Panel through an OEM-approved agency. They informed us that the internal moving parts of the VCBs are damaged due to aging and normal operational wear and tear, rendering them unrepairable. Additionally, one CT in the Transformer-2 Bay was found to be faulty. Therefore, to ensure the reliability of the power supply to our stakeholders in Phase II and Phase III campuses, replaced the faulty VCBs and CT with new ones. The cost of the old VCBs and CT has been deducted from the asset list, and the cost of the new ones has been added. The Hon'ble Commission is kindly requested to consider and approve these investments.

34. The closing values for GFA and accumulated depreciation are taken for computing the depreciation for FY 2023-24. As per the regulation depreciation for the non-depreciable assets are not computed and claimed. Further, the depreciation for the embedded non-depreciable assets is deducted. Thus, the depreciation, for the balance Assets for the year calculated is **Rs.82.38 Lakhs.** The detailed calculation of GFA, Depreciation and NFA are given in the Format-D-3.5.

INTERESTS, RETURN ON INVESTMENT AND REVENUE REQUIREMENT

35. Technopark has **completely repaid closed all outstanding capital loans** so far taken. There is no additional loan taken during the year. Hence there was no actual loan repaid, or interest paid during the year.

36. **Interest on working Capital:** The interest calculation for working capital requirement as per the regulation is shown in the format D-3.7. The working capital requirement for meeting the O&M expenses and Spares for one month and sales receivables for two months, was **Rs. 1171.10 Lakhs.** The Consumer Security Deposit held in cash was **Rs. 1948.77 Lakhs**. Since the Consumer deposit could cover the working capital requirement, no additional borrowings were required and hence no interest on working capital is claimed. However, **Interest paid on consumer Security Deposit** paid during the year was **Rs.123.62 Lakhs.** The detailed computation of working capital is given in Form D-3.7.

37. **Return on Net-Fixed Assets:** The Net Fixed Assets (created from own funds) at the beginning of the financial year 2023-24 was **Rs.1637.13 Lakhs**. The return on NFA is calculated is **Rs.90.04** Lakhs at 5.5% rate. The calculation details are given in Format D-3.8.

38. **ARR for FY 2023-24:** The actual aggregate revenue requirement for the year including the Return on Net Fixed Assets calculated as per the regulation is **Rs.6504.21 Lakhs.** Hon'ble Commission may please note that the expenses incurred by the Petitioner is genuine and the

minimum required for running the business. It is appealed that the Hon'ble Commission may please allow the expenses in full and approve the ARR.

REVENUES AND NET GAP

39. Revenue from Sale of Energy: The total Revenue from the Sale of Energy to various classes of Customers for the Year was **Rs.6683.88 Lakhs** compared to Rs.5750.11 Lakhs received the previous year. The month wise energy sales have been given in the Format D-7.1. The phase wise revenue collected is given in Format D-2.1 in separate sheets for each Phase and the total sales. A summary of the energy sold, and revenue collected are given in the Table below.

Item	Energy Sold (MU)	Fixed Charge	Energy Charge	Total Revenue*	Av. Realisation
LT Sales	34.23 (46%)	Rs. 8.81 Cr	Rs. 23.72 Cr	Rs. 33.10 Cr (50%)	Rs. 9.67
HT Sales	40.18 (54%)	Rs. 6.91 Cr	Rs. 26.94 Cr	Rs. 33.59 Cr (50%)	Rs. 8.36
Total	**64.33 MU**	**Rs. 15.72 Cr**	**Rs. 50.66 Cr**	**Rs. 66.69 Cr**	**Rs. 8.96**
					** Including other charges, incentives, penalty etc*

40. Non-Tariff Income: The revenue from non-tariff sources was **Rs.148.43 Lakhs**. It was Rs.78.09 Lakhs and Rs.83.67 Lakhs and Rs.94.04 Lakhs in Previous three years. The details of non-tariff income are given in Format D-2.4. About 60% of this income came from Interest on KSEB and Bank deposits., 36% from late payment surcharge, and 2.5 % from commission received for collection of Electricity Duty and 1.6% from miscellaneous Receipts. The miscellaneous receipts include connection charges, reconnection charges, temporary connection charges etc.

41. Revenue Gap: Thus, total Income from Tariff and Non-Tariff resources for the year was **Rs 6832.31 Lakhs.** In comparison, the total income received was Rs.**5828.20 Lakhs** last year. The total revenue requirement for FY 2023-24 was **Rs.6504.21 Lakhs.** Therefore, there was a revenue surplus of **Rs.328.09 Lakhs** in the year as per the above truing-up of accounts.

PERFORMANCE

42. Availability of Supply: The petitioner maintains 100% supply availability to the consumers round the clock throughout the year. The petitioner has installed Diesel Generator Sets when the supply from the Utility fails or switched-off for maintenance purposes. The base load and peak load availability have been calculated and shown in the Form D-6.1

43. Distribution Losses: The phase wise and overall distribution losses during the FY 2023-24 is calculated and shown in the Format D-6.2. The overall distribution loss is 4.06 %. The losses are less than the previous year losses. The loss in all campuses had decreases except Kollam Campus (Phase-IV). Upon investigation, the petitioner has determined that Technopark Kollam campus has not reached its expected load levels, causing the transformer to operate under low-load conditions. This has resulted in increased transformer losses (both no-load and

load losses), thereby amplifying the percentage loss figures. Furthermore, some current transformers (CTs) on the campus have been identified as having a low accuracy class. Additionally, there is a possibility that certain meters on the campus may be inaccurately recording energy flow, further affecting the loss calculations for Technopark Kollam. To address these issues, Technopark conducted a site inspection and checked the metering equipment. During this inspection, one of the consumer CTs connected to an energy meter was found to be faulty. Instant actions have been initiated to replace the faulty CT in compliance with the latest CEA guidelines.

It may please note that, the losses in the other phases are minimal and there may not be any no room for further major loss reduction. The petitioner taking all efforts to keep the losses minimum. However, it may be noted that in small distributions systems with less than 1000 consumers, error in a few meters can change the **percentage losses** substantially. Hon'ble Commission may seriously consider this aspect in respect of system losses.

44. **Collection Efficiency:** The petitioner takes best effort to keep all the meters in accurate working order. The defective meters are replaced when the defects are noticed. The collection efficiency in the year was **95.46%**. The detailed calculation is given in Form D-7.3. Hon'ble Commission may please also consider that, (1) there is **no large long-standing arrears** from the consumers and (2) that **surcharge is levied** promptly for delay in payment.

45. The Cash Flow Statement, Profit and Loss Account for the Year and the Balance Sheet along with other forms as per the Regulation are submitted with this petition. It is appealed that the Hon'ble Commission may please consider and approve the genuine expenses incurred by the petitioner and the true income earned from the business and the revenue gap calculated as per the audited accounts.

PRAYER

The petitioner, therefore, earnestly pleaded that, Hon'ble Commission may please consider the above petition showing the actual expenditure and income for the Financial Year 2023-24 and approve the revenue surplus of **Rs.328.09 Lakhs**.

DEPONENT

Jayanthi. L
Chief Finance Officer,
Park Centre, Technopark Campus,

	a) Gross fixed assets		78,06,97,543	74,13,61,967	
	b) Less accumulated depreciation		21,98,65,464	23,71,34,294	
	c) Net Fixed assets((a)-(b))		**56,08,32,079**	**50,42,27,673**	
	d) Capital works in progress		56,89,130	2,11,55,172	
	e) Assets not in use		-	-	
	f) Deferred costs		-	-	
	g) Intangible assets		-	-	
	h) Investments		-	-	
	Total (c) +(d)+(e)+(f)+(g)+(h)		**56,65,21,210**	**52,53,82,846**	
(B)	**B)Subsidy receivable from Government**				
	Contribution receivable from State Government towards pension liability		-		
(C)	**Net Current Assets**				
	(1) Current assets, loans and advances				
	a) Inventories*				
	b) Receivables against Sale of Power		17,70,76,538	14,67,95,676	
	c) Cash & bank balances		2,51,05,866	3,18,89,568	
	d) Fixed Deposit for Bank Guarantee to KSEB & others		5,07,43,469	4,52,72,769	
	e) Loans and advances		84,39,08,332	83,54,24,238	
	f) Sundry receivables		-	-	
	Total (C) (1)		**1,09,68,34,204**	**1,05,93,82,251**	
	(2) Current liabilities & provisions				
	a) Security Deposits from Consumers		19,48,77,310	17,90,87,535	
	b) Borrowings for working capital		-	-	
	c) Payments due on Cap. liabilities		-	-	
	d) Other current liabilities		13,96,58,263	13,63,46,569	
	Total (C) (2)		**33,45,35,573**	**31,54,34,104**	
	Net Current Assets (C(1)) - (C(2))		**76,22,98,631**	**74,39,48,147**	
	Grand Total of Application of funds (A)+(B)+(C)		**1,32,88,19,841**	**1,26,93,30,993**	

Technopark - Techno Power Account

Park Center, Technopark Campus, Trivandrum

CASH FLOW STATEMENT AS PER " AS 3 CASH FLOW STATEMENT"

for the year 2023-24

PARTICULARS	AMOUNT	AMOUNT
Cash flow from Operating activities		
Net Profit before taxation and extraordinary item	4,18,13,561.04	
Non Cash and Non operating activities		
Depreciation and amortization	82,38,236.65	
Operating profit before working capital changes	**5,00,51,797.69**	
Decrease in Retention Money	(2,21,414.00)	
Increase in Trade Recievables	(3,02,80,861.14)	
Increase in bank gaurantee / Interest Accrued	(54,70,700.00)	
Decrease in Deposit work	(4,31,205.00)	
Increase in Electricity Deposit	(81,51,165.00)	
Increase in Current Asset - Asset held for resale	(3,32,928.69)	
Decrease in audit fee payable	(33,000.00)	
Increase in Electricity connection deposit received	1,57,89,775.00	
Increase in KSEB payment	70,46,781.00	
Decrease in Trade Payables	(33,01,713.91)	
Increase in TDS Payable	2,52,246.00	
Cash flow before extraordinary items	**2,49,17,611.95**	
Depreciation on asset written off	(6,25,967.31)	
Depreciation on Grant portion	10,34,927.27	
Loan repaid during the year- Electonics Technology Park Kerala	(82,40,740.17)	
Cash generated from Operating Activities		**1,70,85,831.75**
Cash flow from Investing Activities		
Increase in Fixed assets	(3,93,35,576.00)	
Decrease in Work In Progress	1,54,66,042.00	
Net cash used in Investing Activities		**(2,38,69,534.00)**
Cash flow from Financing Activities		
Repayment of long term loans:		
South Indian Bank (110 K V SS)	-	
Increase in Corpus Fund	-	
Cash used in Financing Activities		**-**
Net Increase in Cash and Cash Equivalents		(67,83,702.25)
Cash and Cash Equivalents at the beginning of the period		3,18,89,567.99
Cash and Cash Equivalents at the end of the period		**2,51,05,865.74**

-
